THE CENTER FOR MEMORY SUPPORT

HARBOR'S

Whatever moves you.

When your loved one's memory begins to fade, it can be difficult to imagine—and plan for—the road that lies ahead. Harbor's Edge is here to help you navigate this journey. Our team of dedicated experts gives your loved one physical and mental support in an engaged community, while also providing you with peace of mind.

NOW ACCEPTING DIRECT ADMISSIONS

My wife lives on the memory unit, and it has been a godsend for her and for our family. The staff is calm, attentive and patient. The program has so many activities on the unit and off-unit, which really encourages friendships among the residents.

My wife has had a significant reduction of fear and anxiety, and my own worry and caregiver strain are markedly lessened. I highly respect all dimensions of the Harbor's Edge memory care unit and I recommend it for families in distress."

Lawrence Bernert, M.D.

EXCELLENT CARE AT HARBOR'S EDGE

Our staff members are specially trained in Alzheimer's and dementia care, which allows us to offer superior assistance to our memory support residents. We work closely with family members, and together, we create a personalized plan for every resident—one that stimulates mental and physical focus, promotes physical health and encourages socialization.

And while our approach fosters independence, it offers key support services such as health monitoring and medicine administration. Residents can enjoy the resort-style environment of Harbor's Edge, while also benefiting from the safety of a 24-hour supervised and secure environment.

Harbor's Edge offers all inclusive pricing without levels of care changes.

WELCOMING ACCOMMODATIONS & AMENITIES
